RE: SHARING ABOUT OUR AIDP/ASCD PROGRAM REVIEW

Greetings:

We want to share with everyone about a review we are conducting this summer and fall, to report on the successes and challenges of our programs. The intent is to share information with service funders and other service partners, and to inform efforts to advocate for increased resources.

We have worked with the AIDP and ASCD Regional Advisors, as well as Monique Gray Smith from Little Drum Consulting, on surveys designed to gather information from front-line service providers and from parents/caregivers of children receiving services.

There are surveys designed to be completed by staff members of AIDP and/or ASCD programs, and surveys designed to be completed by parents/caregivers of children who has used AIDP and/or ASCD programs.

There will be three options for completing the surveys:

- Paper copy;
- Online; or,
- Telephone.

We will be sending out the survey documents and instructions for completing and submitting them within the next week and hope to have them returned by September 30, 2011.

Please feel free to contact us at 1-866-388-4881 if you would like any additional information, or have any questions about our review.

All My Relations,

AIDP Provincial Advisor

ASCD Provincial Coordinator
